TEACHNICAL SKILLS

- **Design:** Adobe Illustrator, Adobe Photoshop, Adobe PR, Adobe InDesign, Adobe After Effects
- **3D design:** C4d, Maya
- **Front-end development (web):** CSS, HTML, JS (Vue), C, Java, Python
- **UX/UI design**: Figma, Adobe XD
- **Languages:** Mandarin (Native), English (Fluent), French (Fluent)

EDUCATION

Efrei Paris Panthéon-Assas University — **Paris, Françe**
MEngé Softwear engénier — Sep 2024 – Aug 2027

University of Edinburgh — **Edinburgh, UK**
MSc Design and Digital Media — Sep 2021 – Aug 2022

Guangdong University of Foreign Studies — **Guangzhou, China**
BA Visual Communication Design — Sep 2016 – Jun 2020

WORK EXPERIENCE

Breatic — AI Operating System for Content Creators — **Beijing & Shanghai China**
UX/UI Designer & Frontend Developer (Junior) — Dec 2025 – Apr 2026

- Designed the UX/UI for Breatic, an AI-native infinite-canvas workspace where creators generate and edit image, video, audio, 3D and text assets through AI agents in a real-time collaborative environment.
- Built the design system from scratch — design tokens, a neutral-first visual language, and full brand identity (logo, iconography, light/dark theming).
- Authored the complete UX specification for the canvas workbench and Studio entry page — node state machines, a 47-tool mini-tool system, chat panel, top bar, tab bar and floating menu — then translated the specs into high-fidelity interactive prototypes using Vite, React, Tailwind and shadcn/ui.Collaborated with frontend engineers on production development in React/TypeScript (ReactFlow canvas, Yjs real-time collaboration, i18n and theming), while driving 20+ architecture/design decision records and standardising the design-to-development handoff.

TAGWALK Fashion Search Engine — **Paris, France**
UX/UI Designer & Product Manager (Junior) — Seb 2023 – Aug 2024

- Deeply involved in constructing convolutional neural network AI systems, collaborating with marketing to finalise front-end product prototypes. Following product completion, gathered client feedback from LVMH, Kering, Richemont and other companies through meetings, implementing customised iterations.
- Revamped app user flow and established an online user community, driving a 34% increase in user-generated posts.
- Collaborated with the technical team to manage front-end development, providing timely bug fixes and ongoing support.
- This fashion search engine tool was named one of TIME's Best Inventions of 2025 and received exclusive coverage in Vogue.

ECENTIME — **Paris, France**
UX Designer and Web Developer — Feb 2022 – Aug 2023

- Responsible for UX and UI design of commercial websites and mobile apps, including the interface of the mobile application interface.
- Redesigned the app's usage logic and formed an online community of users, resulting in a 20% increase in the number of posts.
- Created a social + product marketing model and added a new user reward mechanism, resulting in a 15% increase in daily active users.
- Completed the large-scale online game for the 2023 New Year event, 'A Prosperous Year of the Rabbit'. This encompassed the entire development process from initial sketching to independent execution, including: - Creating gameplay flowcharts - Designing chibi-style characters - Developing interface prototypes - UI design - Animation design - Full-cycle agile software development. Additionally, produced the promotional video and animated advertisements for the event's later stages.

YIVA Digital — **London, UK**
UI Designer and Web Developer (Part-time) — Aug 2022 – Dec 2022

- Responsible for UX and UI design of commercial websites and mobile apps, including the interface of the mobile application interface.
- Worked as both a front-end development engineer and a UI designer in the group and directed the UX design.

HUAWEI Technologies Co. Ltd. — **Shenzhen, China**
UX Design Intern — Feb 2021 – Aug 2021

- Responsible for Huawei's data interaction and cross-platform user experience design. (including Huawei watches, phones, tablets)
- Interfacing with data engineers and front-end development engineers to translate data and research into design prototypes.
- Completed the upgrade of the app from 11.0.5.28 to 11.0.5.32 to 11.0.10 with an increase in average app usage time of 0.67h/week.
- Updated the data visualisation function for exercise monitoring and the "AI suggestions" function has been added through data learning.
- Responsible for the interaction design between the phone and the watch of Huawei Health and the UI design of health monitoring.
- Conducted thorough research of design to efficiently design UX logic, optimize Huawei apps that link to corresponding smart devices.

Guangdong Yingliang Advertising — **Guangzhou, China**
Graphic and VI Design — Jun 2020 – Jan 2021

- Secured an online education company's second round of funding by participating in the marketing design process.
- Maintained communication with online marketing campaign participants (marketing team, 3rd party advertisers, web designers and clients)

ACTIVITIES

ArtEx EFREI Creative Innovation Centre — **Paris, France**
Team Lead & Owner — Feb 2026 – May 2026

- Led a team of 6 to design and ship ArtEx , an end-to-end digital-art trading platform (POC) featuring fractional ownership and 1–50x leveraged perpetual futures , delivered from scratch in one academic year with zero infrastructure budget.
- Designed & implemented the Virtual Market Maker , a custom pricing engine using Geometric Brownian Motion that generates continuous, low-latency prices every 2 seconds and streams them to clients via Server-Sent Events (SSE) , solving the cold-start liquidity problem.
- Integrated DeepSeek AI for two autonomous features — a conversational art curator and an AI account monitor that executes trades via structured LLM function-calling — alongside API-key security and regulatory analysis (MiFID II, gambling law).
- Managed the project end-to-end using agile sprints and Git/GitHub, coordinating a distributed team, database schema design (9+ tables), and prioritising performance, auditability, and responsible design trade-offs.
